YEAR 11 SRC REPORT

Being a part of the Student Representative Council means we hold the trust that our fellow students have given us to represent them. As SRC we try our best to represent our student body to the best of our ability. We are the voice of our student body, holding the responsibility to contribute students’ ideas to improve school life. We try our best to organise different ways and activities for students to participate and be involved in the school community.

Most recently we assisted the Parents and Friends with the Jelly Day Fundraiser and we had lots of fun helping out. We were happy to sell all the jelly and we were proud to be part of a community that works together towards further improvements for our school.

Year 11 SRC
YEAR 4 SRC REPORT

A group of 29 children from a primary school in China visited our school for one week to learn with us and learn about how we live in Australia compared to China.

During that week, 3 Chinese students came to visit our Year 4 class. Daphne, Katerina and I took care of the 3 students. There were 2 girls named Kris and Annie that Daphne and Katerina took care of and then I took care of the boy named Andy.

It was really fun to look after them during that week and also great to get to know them, even though we didn’t speak Chinese very well and they didn’t speak English very well.

We think they had a great time with us and we hope they can come back to Australia and St George College, soon.

Year 4 SRC
YEAR 9 SRC REPORT

On Wednesday the 26th of August the Parents & Friends of St George College held Jelly Day as part of our Book Week celebrations. On the day of the event all the parents, which set up the stall for selling jelly, were quite excited to have both Year 9 and Year 11 SRC’s involved and ready to help out at the Senior Campus and the Year 12 and 10 at the Junior Campus. We didn’t expect for any older students to buy any jelly and were prepared to just sell to the younger kids; however, to our surprise many senior students came to buy jelly and from our understanding all students loved the jelly! As SRC’s we love to get involved with any fundraiser that can benefit the school or charities so we were more than happy to help out. We wish to continue assisting the Parents and Friends of St George College in the near future.

YEAR 9 SRC
COORDINATOR’S REPORT

Another busy season in the life of our SGC students!
Our students have been busy mentoring, selling jelly, souvlaki and recycling!
We were also blessed to have a group of students join our school community
from China for one week. They immersed themselves in the Australian
culture and participated in all school activities during their week at St George
College.
Our Year 9, 10, 11 and 12 SRC happily assisted the Parents and Friends with
the Jelly Day Fundraiser and are very excited to see what the money raised
will be used for. The House Captains assisted with Souvlaki Day!
The House Captains are also managing the can and bottle recycling and
teaching their peers the importance of doing every little bit they can for our
environment
I’ll take this opportunity to wish the Year 12 students all the best for their
exams and best wishes for the future!
